

LET'S HIT THE BEACH

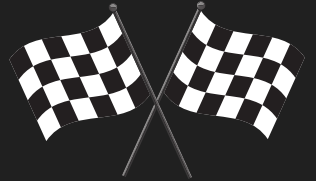

After the Summit ends, and you want to “hit the surf” or relax, some beautiful beaches are within easy and short driving distances. “Catch some rays” while you relax.

If relaxation is not your thing, there are plenty of great activities like fishing, sightseeing, or surfing. You can even get lessons and learn to surf.

DAYTONA BEACH

Just 58 minutes from Orlando is world-famous Daytona Beach. At low tide, you can find 500 feet of beautiful shoreline. **Did you know you can also drive your car onto certain parts of the beach?** You can park your car on the beautiful white sands for \$20 per vehicle per day (and conditions permitting). And, of course, don't forget the World-Famous Daytona Speedway.

PONCE INLET

Ponce Inlet is 1 hour and 8 minutes from Orlando and offers a more laid-back feeling while still offering a great place for surfing. From fishing to dining to the gorgeous lighthouse, Ponce Inlet has something for everyone. Again, on the beach, parking (conditions permitting) is \$20 per vehicle per day.

NEW SMYRNA BEACH

Just 1 hour and 3 minutes from Orlando is New Smyrna Beach. New Smyrna offers visitors surfing lessons, a beautiful beach, fishing, and more! Looking for a great Art Scene? New Smyrna has some of the best art around. “Beachin’ it” not your thing? Hit the links at the New Smyrna Golf Club.

Yet another World-Famous beach, Cocoa Beach, is one hour and nine minutes from the hustle and bustle of Orlando. Cocoa Beach is home to Ron Jon, the World's Largest Surf Shop, with over 50,000+ square feet of everything you might need for the beach. Cocoa has something for everyone in your travel party, from parasailing, kiteboarding, windsurfing, enjoying the breathtaking scenery, free live music, and so much more.

Check out the pier that stretches 800 feet into the ocean!

HELPFUL TIPS

While Florida's beaches are beautiful, there are several things you need to be aware of.

Rip Tides can occur anytime. Be sure to check out information about Rip Tides and what to do if you get caught in one.

It is **HIGHLY SUGGESTED** to stay out of the water if Rip Tide warnings are posted.

Volusia County Beaches (Daytona, New Smyrna, and Ponce Inlet) **do not allow alcohol on the beach.**

If you choose to visit Volusia County Beaches, download the Volusia County Beaches App for all the latest info.

Check out www.visitflorida.com for more information.

Pack your sunscreen, sunglasses, and hats, or pick them up locally once you arrive. There is a reason Florida is known as "The Sunshine State."

The AccuWeather App will show you a "Brightness Index" and the "Max UV Index." Remember bug spray if you go hiking or away from the beach.
